DON BOSCO FARREL ADITYA HERMANTO

Data Engineer | Data Analyst | Big Data
Jakarta Barat, Indonesia • 085930236659 • donboscofarrel288@gmail.com
linkedin.com/in/donbosco-farrel-81691b322 • github.com/D-Farrel • d-farrel.github.io • Tableau Public

PROFESSIONAL SUMMARY

Computer Science student at BINUS University specializing in Data Engineering and Analytics. Experienced in building end-to-end ETL pipelines, designing data warehouses (SCD Type 2, CDC), and developing interactive Tableau/Power BI dashboards. Proficient in Python, SQL, PySpark, and distributed data tools (Spark, Hadoop).

EDUCATION

Bachelor of Computer Science 2024 – Present
Universitas Bina Nusantara (BINUS University) • Jakarta, Indonesia
– GPA: 3.22 / 4.00
– Coursework spans the full data stack: Data Analytics, Data Engineering, Data Visualization, Big Data Processing, Software Engineering, and Computational Biology

SMA Negeri 7 Banjarmasin 2021 – 2024
Banjarmasin, Indonesia

PROJECTS

Hotel Booking Analytics | Python · Pandas · NumPy · Tableau · Jupyter
– Cleaned and analyzed 86,638 booking records across City and Resort hotels (2015–2017) with Python (Pandas, NumPy), identifying a 27.69% cancellation rate and seasonal ADR patterns
– Built an interactive Tableau dashboard on a star schema model with three views (Cancellation Analysis, Overview & KPI, Revenue & Pricing), letting non-technical stakeholders filter by season, hotel type, and customer segment
– Delivered an analytics report with business recommendations on cancellations and peak demand, backed by EDA and feature engineering

ETL Data Warehouse Pipeline | Pentaho Spoon · MySQL · Cloudera · SCD Type 2 · CDC
– Built end-to-end ETL pipelines in Pentaho Data Integration (Cloudera/MySQL), from raw ingestion to query-ready fact and dimension tables
– Implemented SCD Type 2 to preserve historical records and CDC for incremental loading, so each run processes only changed data
– Orchestrated multi-step jobs with error handling and job sequencing, ready to run on a schedule

Big Data Classification & Clustering | PySpark · SparkML · Hadoop · Google Colab
– Built SparkML pipelines for classification (Random Forest, Decision Tree) and clustering (KMeans) on datasets too large for a single machine
– Implemented MapReduce patterns for distributed processing with PySpark on Google Colab, standing in for a lab cluster
– Worked with partitioning and lazy evaluation, comparing the RDD and DataFrame APIs

Adaptelemed – Telemedicine PWA | JavaScript · PWA · Agile/Scrum · Software Engineering
– Co-built a telemedicine Progressive Web App as part of a national PKM-KC (Program Kreativitas Mahasiswa) submission with a cross-functional student team
– Contributed to system architecture, UML diagrams, and Trello sprint planning across multiple development cycles
– Applied Software Engineering practices: testable code, metrics tracking, and DevOps principles

ORGANIZATIONAL EXPERIENCE

Event Committee (FL) – BINUS untuk Negeri 2025 – 2026
– Served as FL on the committee for the BINUS untuk Negeri event

Deputy Event Head (Wakil Ketua Acara) – Program Kerja LDK-A
Keluarga Mahasiswa Katolik (KMK)
– Held the deputy lead role for the event, working alongside the event head to run the program

Equipment & Logistics Activist (Perlengkapan) 2025 – 2026
Keluarga Mahasiswa Katolik (KMK)
– Responsible for preparing and managing equipment needs for KMK activities

SKILLS & TECHNOLOGIES

Languages	Python, SQL, R, JavaScript
Data Eng.	Pentaho Spoon, ETL Pipelines, SCD Type 2, CDC, Data Warehousing, MySQL
Big Data	Apache Spark, PySpark, SparkML, Hadoop, MapReduce
Analytics	Pandas, NumPy, Jupyter Notebook, RStudio, RapidMiner, BioPython
Visualization	Tableau, Power BI, Matplotlib
Dev Tools	Git, GitHub, VS Code, Linux CLI

ACTIVITIES & PORTFOLIO

- PKM-KC Participant — Adaptelemed Telemedicine PWA, national student innovation program (Kelompok 2)
- Active GitHub — personal and academic projects published at github.com/D-Farrel
- Portfolio Website — projects and write-ups at d-farrel.github.io
- Tableau Public — data visualization portfolio at public.tableau.com/app/profile/donbosco.farrel

LANGUAGES

- Indonesian — Native
- English — Professional Working Proficiency
